***Allowable Subject Matter***

3. Claims 1-25 are allowed.

The following is an examiner's statement of reasons for allowance:

4. As to claims 1, 9, 17 and 25, none of the prior art teach or fairly suggest the limitation "a selection step of selecting one attribute-classified image database corresponding to a present situation from a plurality of attribute-classified image databases classified respectively in accordance with a plurality of attributes corresponding to various situations of a shooting performed by a shooting means in respect of an object image to be discriminatively recognized and identified, and storing therein at least one reference image classified by the at least one attribute and also storing recognition ID attached uniquely to the at least one reference image respectively", in combination with the other limitations of the claims. The prior art of USPN 6,549,913 to Murakawa discloses an image recognition process comprising a database with reference images and attribute information for specifying object image recognition (Abstract). However, the prior art of Murakawa does not teach or fairly suggest a selection step of selecting one attribute-classified image database corresponding to a present situation from a plurality of attribute-classified image databases classified respectively in accordance with a plurality of attributes corresponding to various situations of a shooting performed by a shooting means in respect of an object image to be discriminatively recognized and identified, and storing therein at least one reference image classified by the at least one attribute and also storing recognition ID

attached uniquely to the at least one reference image respectively, as disclosed in the limitations of claims 1, 9, 17 and 25.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
